

**RAULAND RESPONDER 5<sup>®</sup>**

# Time: For What Matters Most

Critical healthcare communications that get you back to the bedside.

Get to know the **real** Rauland.

# Because everything you do begins and ends with your patient.

An engaged, satisfied nursing staff can provide improved, more efficient care. Rauland specializes in meeting the real needs of healthcare professionals who face heavy patient loads, compliance mandates, critical time-frames and ever-changing technology. Installed in more than 1 million acute care beds in 40 countries across the globe, our intelligent nurse call solutions are designed for a very focused objective: more responsive, safer, better patient care.

## 100% scalable solutions keep work—and communication—flowing.

Readily customized to specific environments and challenges, Responder<sup>®</sup> goes beyond simple nurse call to include key team members and multiple departments across the hospital. Responder helps you reduce errors, improve performance, ensure rounding, and eliminate wasted time and effort.

Connect staff and their patients with the best possible care —  
**connect with Responder<sup>®</sup>**

# Responder 5 connects every touchpoint of care throughout your facility.

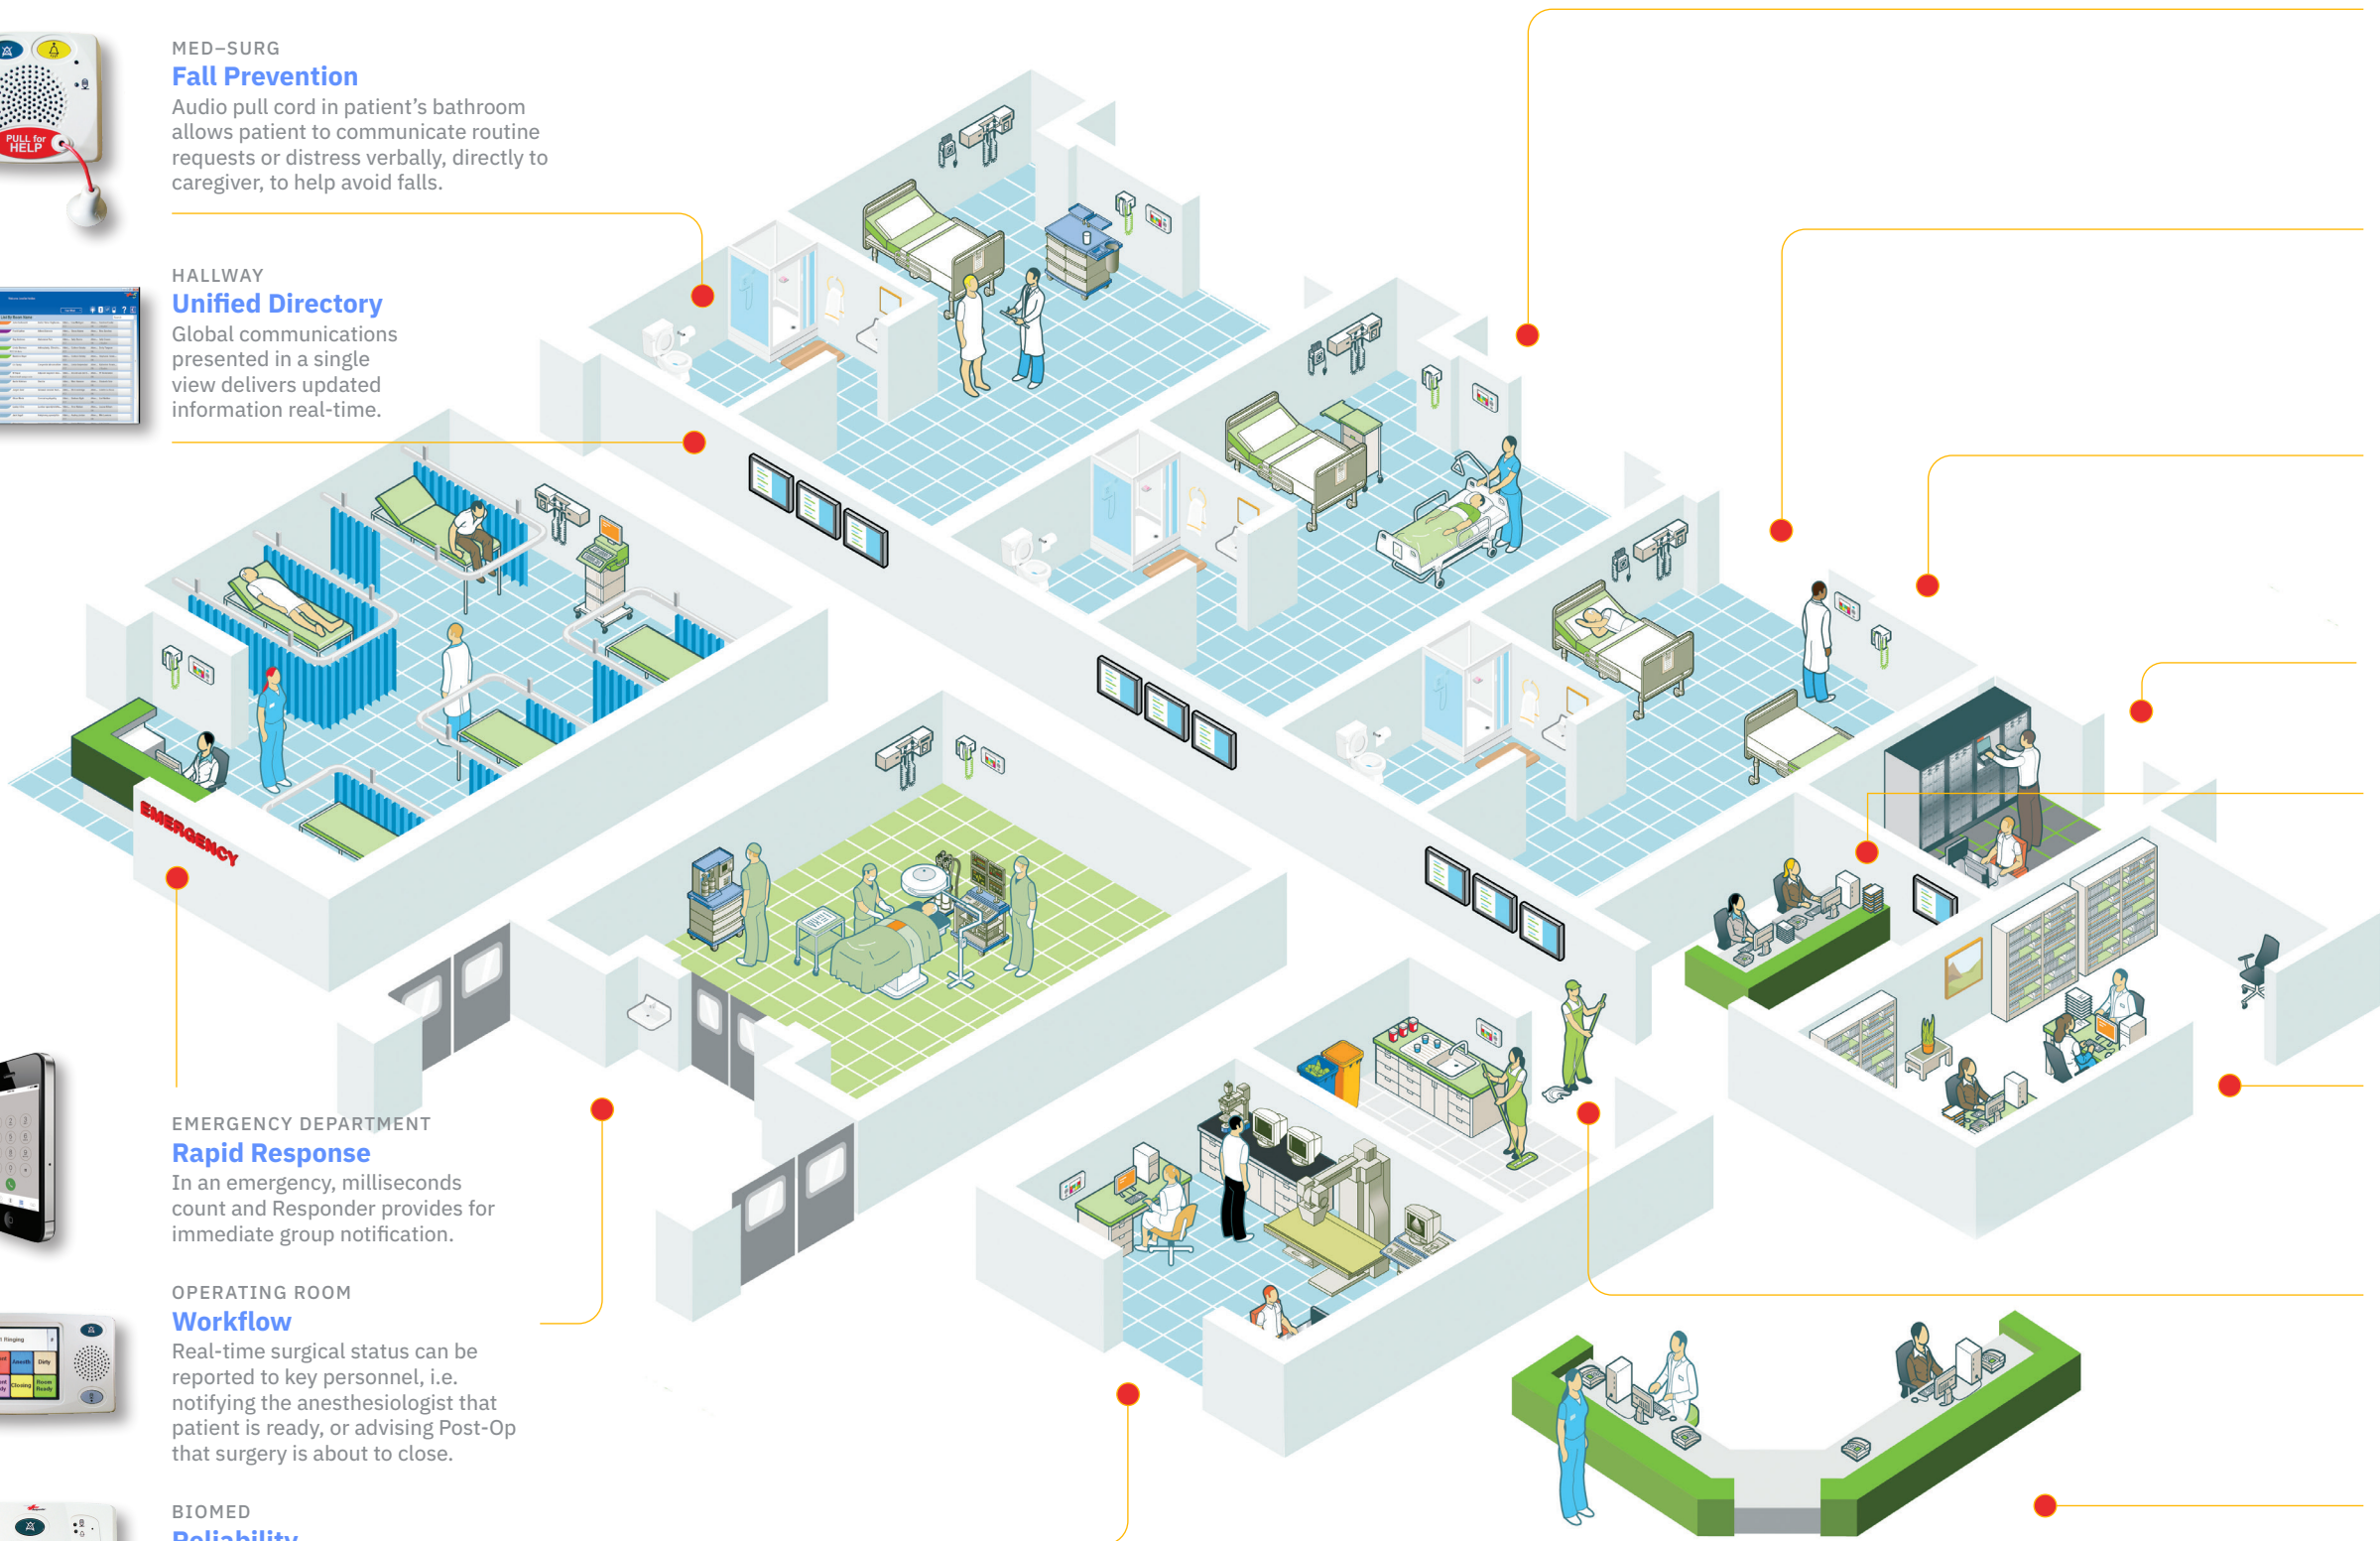

## MED-SURG Fall Prevention

Audio pull cord in patient's bathroom allows patient to communicate routine requests or distress verbally, directly to caregiver, to help avoid falls.

## HALLWAY Unified Directory

Global communications presented in a single view delivers updated information real-time.

## EMERGENCY DEPARTMENT Rapid Response

In an emergency, milliseconds count and Responder provides for immediate group notification.

## OPERATING ROOM Workflow

Real-time surgical status can be reported to key personnel, i.e. notifying the anesthesiologist that patient is ready, or advising Post-Op that surgery is about to close.

## BIOMED Reliability

Responder's robust performance offers innovative features and minimally disruptive maintenance and troubleshooting—all with a 5-year warranty.

## ALL TOUCH® Status/Alerts

Document patient care to the EMR automatically, and transmit patient status changes, medical device alerts and other events directly to the Responder corridor light and census SWOPs to heighten awareness and mitigate missed communications.

## MED-SURG Rounding

Reminders programmed for recurring check-ins can be easily sent via wireless phones to help improve patient care and increase patient satisfaction scores.

## MED-SURG Bed Events

Integrated bed exit alarms and other advanced bed status and alerts to lights in the corridor and status boards to identify patient fall risks and help minimize patient falls.

## IT Open Architecture

Using an open architecture framework, Responder integrates seamlessly with hospital servers and within data centers, remotely or locally.

## CALL CENTER Code Blue

Call management across departments and staff can be centralized, de-centralized or a mix of both to ensure calls are answered immediately.

## CNO/NURSE MANAGER Business Intelligence

Visualize key metrics to help you solve issues and show trends concerning workflow, performance and response times – in near real time.

## ENVIRONMENTAL SERVICES Room Turnover

Summon EVS with the touch of a button to clean room, notify nursing staff when ready, and report room turn-over time.

## NURSING STATION Improved Efficiency

Sync all staff assignments across multiple systems to eliminate multiple sign-ons.

Deliver the best possible care, and foster a productive, happy staff environment – the **intelligent nurse call solution** for communications and workflow.

Responder<sup>®</sup> 5 allows nursing staff to work with greater efficiency and harmony with their patients to help your care be the best it can be.

### Patient Safety

Guaranteeing the safety of your patients is your top concern. Responder intelligent nurse call solutions for workflow, reminders and communications help you achieve that goal.

### Patient Satisfaction

Your patients' experience is improved when you can deliver attentive, responsive care. Responder solutions give your patients a voice, and help you respond faster to their needs.

### Staff Satisfaction

Reducing the time you have to spend on non-caregiver activity can reduce the interruptions that take you away from delivering that care. Responder can automate your processes and documentation, and let you send calls to the right level of response.

### Streamlined Workflow

Straight-forward connections and customized integrations let you give your patients the most effective care you can. Responder's simple, effective processes help you respond quickly and effectively to critical needs and routine requests.

### Measurable Care

Monitoring and trending critical activities help you constantly improve on the care your patients receive and the satisfaction of staff. Responder delivers the data you need to make that decision-making easier.

### Proven Effectiveness

Prevent missed nursing care by leveraging clinical communications technology that can maintain your competitive edge in a value-based purchasing era.

## Visit Us at Our Solution Center

The 40,000 sq. ft. Rauland Solution Center near Chicago presents a complete, collaborative hospital experience for customers. Each area is fully equipped with interactive Responder hardware and software components, allowing customers to review products in hands-on environments simulating Emergency Room, Operating Room and Patient Care rooms.
